Department of Physics
Report on field trip 28.02.2022

In view of National Science Day, in collaboration with Samskruthi Foundation, organized field trip to “Raithu Nestham” which is located at Taramathipet, Near ORR, Bonguluru , Hyderabad on 28.02.2022. About 48 students of B. Sc of various combinations were participated in this field trip. Raithu Nestham founder G. Nagarthanam Naidu explained the various methods of organic forming, which were adopting themselves in their 17 acre farmland . He showed the various crops, fruit plants, Medicinal plants including Horticulture and Floriculture.

In this program, Padmasri Awardee Venkateshwar Rao explained the importance of Organic forming and he appealed the students not to use the fertilizers and pesticides. He said that they spoil the land as well as the health when we consume them.

After the interaction with the G. Nagarthanam Naidu and Venkateshwar Rao, visited the whole farm land and observed the various plants especially how they are growing with organic farming methods. Samskruthi Foundation provided the food and travel facility.

Dr. G. Sukanya, Principal of the college was started the field trip by unveiling the flag. Dr. J. Bharathi, Dr. J. Chinna Babu, Mr. S. Madhu and Samskruthi foundation Representative Ajay were coordinated the program.

OUTCOME: 1. Students knew the importance of the organic farming.

2. Students gain the knowledge about organic farming.

3. Students felt that organic farming useful to protect the nature.

4. Students felt that organic farming food is good for health.
